CAREER OBJECTIVE

Final-year Electronics and Computer Engineering student with a strong foundation in artificial intelligence, computer vision, and embedded systems. Eager to apply generative AI and software development expertise to build real-world solutions in a research-driven or product-focused environment.

EXPERIENCE

Loyalty Automation Pvt Ltd, Chennai

May 2026 – Jun 2026

AI and Web Development Intern

- Built and maintained a B2B product catalog platform using **Next.js**, **Express.js**, and **MongoDB**. Integrated the inquiry system with the company CRM for automated lead capture
- Developed an **agentic AI chatbot** with **LangGraph** + **Groq**, enabling product search and inquiry-quotation submission via natural language, deployed with **llama-4-scout-17b-16e-instruct**

Centre for Advanced Data Science (CADS), VIT Chennai

Jun. 2024 – Nov. 2024

Research Intern

- Developed a deep-sea image segmentation framework in collaboration with NIOT for polymetallic nodule detection, achieving **97.90% accuracy** using **SAM 2.1** with custom annotated datasets
- Presented the work at the **7th International Conference on Ocean Engineering (ICOE 2025)**

PROJECTS

South Indian Nutrition Advisor | [GitHub](#)

Mar. 2026 – Present

- Built an AI-powered nutrition advisor for South Indian cuisine using **Google Gemini** and **LangGraph** for multi-step meal analysis and ingredient-level dietary recommendations
- Automated delivery of personalised nutrition reports via email; end-to-end pipeline with no manual intervention
- Skills:** Python, Google Gemini API, LangGraph, Agentic AI, Email Automation

Smart Elevator Automation System Prototype | [GitHub](#)

Mar. 2024 – Apr. 2024

- Built a smart elevator system using **Raspberry Pi**, PIR/ultrasonic sensors, and **OpenCV**-based computer vision for real-time occupant detection and intelligent floor-stopping
- Skills:** OpenCV, Python, Computer Vision, IoT, Raspberry Pi

CERTIFICATES

Java Course — Mastering the Fundamentals | [Certificate](#) | Scaler

Dec. 2024

AI for Everyone | [Certificate](#) | Coursera

Sep. 2024

TECHNICAL SKILLS

Programming Languages : C, C++, Java, Python

AI / ML Libraries : OpenCV, Pandas, NumPy, SAM 2.1, LangGraph, Google Gemini API

Tools : GitHub, Visual Studio Code, Cisco Packet Tracer

Core Areas : Machine Learning, Computer Vision, IoT, Image Processing, Data Analysis

EDUCATION

Vellore Institute of Technology, Chennai

2023 – 2027

B.Tech in Electronics and Computer Engineering | **CGPA: 8.85**

Sri Chaitanya Techno School, Mylapore | Class 12 – 92%

2022 – 2023

Sri Chaitanya Techno School, K K Nagar | Class 10 – 97.8%

2020 – 2021
